

SUPPORTING SANDON

If you need ANYTHING: some shopping, a friendly ear, are feeling cut off or maybe worried about the implications for you in these strange times of 'self isolation'... a support network has been set up around the village of Sandon. Here are the contact details of a number of people who have volunteered for anyone to contact for help or a chat during these next few months. Just call or text one of us and we will do our best to help and if you are able to offer help please let us know (contact someone in your area).

We have sub divided the village and some areas may well set up a **WhatsApp group**. If you would like to be included, please message the coordinator via Whats App or email the relevant person if you don't have a smart phone. If you don't have either perhaps ask someone to help you or to keep you informed.
